

# ALEXANDER TUTSEK— —STIFTUNG

art + science

The Alexander Tutsek-Stiftung sponsors art and science.  
Alexander Tutsek and Dr. Eva-Maria Fahrner-Tutsek established the Alexander Tutsek-Stiftung as a nonprofit foundation in December 2000. In the area of art the focus is on sculpture and photography, in the area of science, on the engineering sciences.

The foundation is deeply committed to the particular and exceptional or even to that which is neglected and overlooked.
